

Enclosed Boat and RV Storage

Boat and RV storage is a booming business that can be combined with your conventional self storage development or thrive as a stand-alone self storage investment. Whether you want to build fully enclosed structures or steel storage canopies, our systems can be customized to meet your needs.

Enclosed Boat & RV storage is built on the same concept that works for conventional steel self storage buildings. We increase steel sizes to accommodate the wider bays and larger doors that Boat & RV storage requires.

“I worked with MakoRabco for 17 years building a phased garage condo project in Dacono, Colorado. In that time span MakoRabco built eight buildings for our garageUnitz project totaling over 150,000 square feet. They offered a turnkey project which allowed me to concentrate on my other subcontractors while beginning the marketing process at the same time. I could not be happier with MakoRabco. I would highly recommend them for any light gauge structural steel projects. MakoRabco performed well during my entire project, and they stood by their work long after the project was completed. ”

JOHN RIDILLA
GARAGEUNITZ

Standard Design Inclusions:

ENGINEERING SERVICES

In-house engineering and drafting

ROOFING

Standing Seam or Screw Down panels

Gable or Shed style roof pitches ranging from 1/4:12 to 6:12
